

WASHINGTON NEWS.

MR. BUCHANAN'S BILL FOR THE RELIEF OF TOBACCO FARMERS.

Win, of Georgia, joins the Third Party—The Tariff Debate in the House—What the Senate Will Do.

(From Our Regular Correspondent.)
WASHINGTON, April 2.—Mr. Buchanan has reported from the House a bill which relates to farmers and the sale of their tobacco on terms where it is produced. Under the present law they are permitted to sell on their places, but are required to keep books and accounts. The report now made repeals the regulation in this particular and does away with the necessity of keeping books or making out statements of the sales.

A GEORGIA FLOP.
Representative Winn, of Georgia, has announced that he will in future act with the Third party, as he is convinced that his constituents do not desire him to stick to the Democratic party. He says that he takes this course because of the failure of the House to pass the silver bill. Mr. Winn represents the Ninth District of Georgia, and is a native of the State. He was an independent and afterwards turned Republican, and was appointed United States Senator in 1880. He was used to represent the district in the House. The district is considered the only reliable one in Georgia outside of the tenth, now represented by Mr. Watson.

Mr. Winn has been acting with the Democrats in the present House, and his friends are disappointed. He is now expected to leave his seat in the Senate, unless he can secure a renomination unless he comes out squarely in favor of the Alliance and its principles.

As yet, Mr. Winn has not been able to secure the Alliance people in Georgia are becoming very much excited.

BURROWS ON THE TARIFF.
The Senate was not in session today, and the House devoted itself entirely to the tariff. Mr. Burrows, of Virginia, made himself so obnoxious to the Democrats during the Mahone campaign in 1889, during a speech which was characteristic of his character, that he is now being treated with a high hand. He is a member of the Ways and Means Committee, and as an orator is admitted to be one of the best on the Republican side. It is not probable that he will be reached in the House by Tuesday next. It is not probable that the Republicans will resort to filibustering to prevent a vote on the tariff. Should they do so the Democrats may have to vote to pass the bill under a suspension of the rules, but to do this it will be necessary to send for a majority of the House.

SENATORIAL POLICY.
It is understood that the policy of the Senate Republicans is to pigeon-hole all of the tariff bills that may be sent over from the House. They can easily do this in the Committee on Finance, and then, if they desire, they can enter into any discussion of the tariff and do not create any deadlocks on appropriation bills. It is not probable that the Democrats will have to vote to pass the bill under a suspension of the rules, but to do this it will be necessary to send for a majority of the House.

Senator Vance has received and presented a numerous signed petition of citizens of Raleigh, N. C., praying for the repeal of an amendment to the Constitution of the United States prohibiting any legislation by States respecting an establishment of religion or making an appropriation of money for any sectarian purpose.

A post-office to be known as Foster has been established in Matthews county, Va., and William E. Foster has been appointed the office at Guinea Mills, Cumberland county, Va., has been ordered removed one mile north of the old location; James B. Griffin, postmaster at the old location, has been ordered removed to the new location.

Washington Aftermath.
(By telegraph to the Dispatch.)
Secretary Blaine has just been discovered by his friends. He was found at the State Department today. This is the first time in nearly three weeks that he has been seen by his friends.

It is probable that there will be no formal report to the Senate of the committee on the bill for the relief of tobacco farmers. The committee will report on the bill, but it is not probable that it will be reported on the bill.

There is a report that the House will not pass the bill for the relief of tobacco farmers. The House will not pass the bill, but it is not probable that it will be reported on the bill.

Telegraphic communication with a majority of the towns in the stricken district is as yet very imperfect, and there is still much uncertainty as to the extent of the damage. CANNON POLITICS.

PROPOSED REPUBLICAN TICKET—NICHOLAS FOR GOVERNOR.

The Democrats, the Alliance, and the Third Party—Oxford's April Fool Hoax—In Limbo.

(Correspondence of the Richmond Dispatch.)
RICHMOND, N. C., April 2.—By some persons it is asserted that the Republicans will put out a State ticket, with John Nichols as the candidate for Governor. He will be one of the weakest men his party could put up. Nearly all the Republicans will be secret this year—as asserted as that of the Third party.

MORE BACKLOG.
There are still increasing demands that the Democratic ticket be made up. Many of the leaders are nervous and timid, and are in a state of fright at the Third party. They also fear the Alliance, which would be a great loss to the party.

Polk's paper (twice Senator Vance, who it says swallowed the Alliance demands and then has never tried to carry them out.

Rev. J. N. Cole, pastor of Edenton Street Methodist Episcopal church here, delivered the annual sermon before the Wesleyan Female Institute, at Murfreesboro.

Dr. Wade H. Atkinson, of Johnston county, was elected to the office of Surgeon of the Washington (D. C.) Emergency Hospital.

One North Carolinian was hurt by the fall of a stage near the cruiser Raleigh at Norfolk Thursday. He is Mr. Matt D. Lee, a well-known business man of Goldsboro.

Editorial London, of the Pittsburg Record, tells me the Third-party spirit is rising in the South. It is a very real thing, and is a very real thing. It is a very real thing, and is a very real thing.

The Oxford paper yesterday announced that ex-President Cleveland would arrive here this morning. It is a very real thing, and is a very real thing.

The Black woman, whose sensational arrest at Winston for bigamy has been reported, and who was brought here yesterday, will be tried at the next term of court. It is a very real thing, and is a very real thing.

DON'T MAKE THE LAW.

OYSTERMEN DISCHARGE THEIR CREWS AND ARE DISSATISFIED.

Merfolk and Portsmouth Primaries—More Work Needed at the Navy Yard—Railway Official Changes.

(Correspondence of the Richmond Dispatch.)
NORFOLK, April 2.—The oystermen have all come in and discharged their crews and laid up their boats for the season. Dissatisfaction is very general among them over the new law, which enforces their idleness until the middle of May or first of June, when they can run track to the shipping wharves. Heretofore the oystermen have been able to work on the rocks until the first of May.

THE LITIGIOUS QUESTION.
Monday the county commissioners held their regular meeting. More applications to sell whiskey in Charlotte will be filed. The interest in this matter is unabated. No license has as yet been granted. Many think the commissioners will not refuse some of the present applicants, but no one can surmise what action the commissioners will take.

(Correspondence of the Richmond Dispatch.)

BETHEL ACADEMY, Va., April 2.—Great interest is being manifested among the ex-cadets of the Bethel Academy, which was established from California to New York, and from their reports the authorities are making preparations to entertain a large number of visitors. Daniel, a patron of the academy, who is a graduate of the academy, and Mr. Hatcher, D. D., of Richmond, who will make a special talk to the boys and preach the baccalaureate sermon. Governor McKinnin will be invited to present and participate in the exercises. It is thought that the reunion will pave the way to a brilliant future for the academy.
